### Directions and Suggestions

In the space below please sketch in your plan for the barrel. The space represents the 24" by 70" area for painting. The top 12" in green should be your background color only, to allow for the plastic bag.

We will have some basic colors. For additional colors you must bring exterior latex paint, that's good on metal. We will also have some basic brushes but we suggest you bring any small or artist's brushes. Also, bring rags and small containers for sharing paint. Plan to take your paints home.

Remember, all paints will take some time to dry. If you plan to paint a background first, you may not be able to paint the design right away.
